

Attention: Parents of current 11th graders, Ohio Immunization requirements for 12th grade include 1 REQUIRED vaccine.

For the 2020-21 school year, ALL incoming 12th grade students are required by the State of Ohio to have received a **Meningococcal (MCV4)** vaccine before starting school in August. This vaccine is required due to the increased incidence of highly contagious illnesses in teens. It is required to have been given on or after their 16th Birthday.

Your child may have received this vaccine during their most recent Well-Check.

Please contact their doctor's office and find out if they need this immunization. Proof of immunization is required. We are accepting proof at this time.
