2020 Summer Reading Assignments

Badin English Department

The Badin Summer Reading Program has three main goals: to keep students immersed in reading and writing over the summer months, to have students read books that embrace the meaning and beauty of life even in difficult circumstances, and to promote a sense of community for students in their grade levels. Students are responsible for procuring a copy of the novel and will write a one-page reflection that will be assigned the first week of school.

The following are the summer reading selections for this year's incoming students:

Freshmen

I Am Malala: How One Girl Stood Up for Education and Changed the World (Young Readers Edition) by Malala Yousafzai & Patricia McCormick

Sophomores

A Tree Grows in Brooklyn by Betty Smith

Juniors

The Chosen by Chaim Potok

Seniors

Man's Search for Meaning by Viktor Frankl

Happy reading, everybody - We look forward to seeing you soon!

The following pages include required supplies for classes. Additional supplies may be needed after school begins.
